

# When I go to the Barcelona Zoo...

When I arrive, I will see the entrance to the Zoo.

Once inside, I will encounter the movement of the park: other visitors walking and some children screaming with excitement.

I will find signs that tell me what I am seeing and what is the best way to feel safe in the park.

There may be seagulls and peacocks near me on the paths.

At times, I may notice a strong smell near some facility or hear the noise of animals.

But seeing spectacular animals and enjoying nature will be an unforgettable experience!

If I get lost or have a problem, someone is always there to help me. On the maps, I will find all the information points.

There are many places to play and enjoy the Zoo safely and a guide will mark all the quiet spaces for me.
